

# COMMUNITY FACE MASK

HIGH EFFICIENCY PARTICLE-BLOCKING FACE MASK

**CHILD SIZES:**

#61-953 TODDLER

#61-954 YOUTH

**ADULT SIZES:**

#61-956 MEDIUM

#61-957 LARGE

#61-958 X-LARGE

**Composition:** Brushed polyester knits laminated on both sides of a breathable ePTFE film.

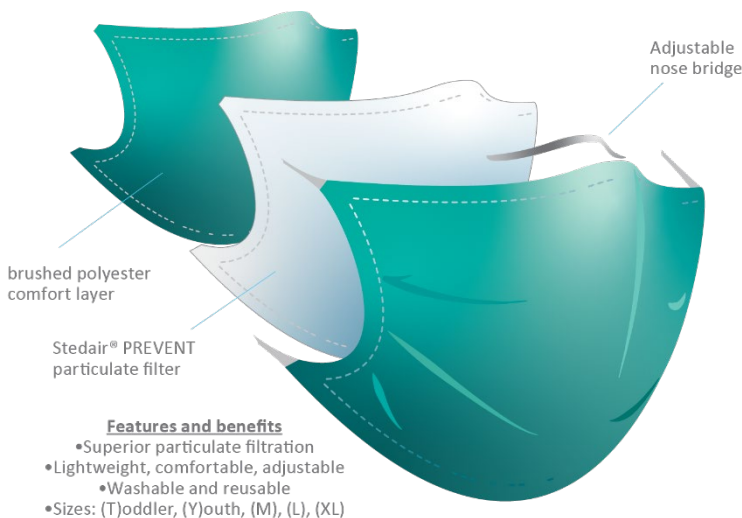

Characteristic	Test Method	Performance
Bacterial Filtration Efficiency	ASTM F2101-19	99.9%
Particle Filtration Efficiency at 0.3µm	GCTTG 154-20	77.9%
Particle Filtration Efficiency at MPPS*	EN 14683:2019	>65%
Differential Pressure	ASTM F2299	48.3 Pa/cm <sup>2</sup>
Resistance to Penetration by Synthetic Blood	ASTM F1862	Pass at 120 mmHg
Flame Spread	16 CFR part 1610	Class 1

\*Most Penetrating Particle Size, which is around 0.12µm for the Spera mask

The Spera **Community** facemask – is available in two Child sizes (Toddler, Youth) and three Adult sizes (Medium, Large, X-Large) offering a proper fit and maximum comfort to the wearer. Adjustable elastics and pleats allow the mask to take the form of the user’s face. The durable brushed fabric has a soft feeling designed for longer periods of wear.

Proudly Made in the U.S.A.

**Specific Weight** – 3.4 oz/yd<sup>2</sup>

**Washable** – 40 machine wash cycles, hot temperature tumble dry (remove nose clip prior to machine wash).

**Hand Wash** – (preferred method) Hot water with liquid soap (hand, dish, laundry), 40 hand wash cycles.

Preferred dry method – Hang dry.

Do not Iron. Do not Bleach. Discontinue use if visible wear, holes or fabric/membrane separation.
